_____ leads to decrease in the levels of ground water in nearby areas.

CASE STUDY

How many ribs are there in our body?

What are the last two ribs of the ribcage called?

Name the longest bone in the body.

What will happen if we have a single bone in our backbone?

Name the only movable bone in the skull.

Name the bones of lower leg.

Name the bones of the arm.

Answer the following questions

Explain in brief human made ways of seed dispersal.

1PW

Make a poster on forest conservation.

Draw the sense organs in different animals.

How can one grow a rose plant without seeds ?

Why all the seeds of a given plant do not germinate near their mother plants ?

Prove that why are potatoes considered stems not roots

Name any two energy obtain from sun

Value based questions

The students of Class-V were asked to prepare posters for the coming parentteacher meet. The teacher assigned different roles to different students. All of them did their work happily in a sincere and organised way. They all helped one another. Their work was liked and praised by all the visitors. The teacher compared their work with the 'Breathing System' when she taught that topic in the class.

State the values displayed by the students.

Discuss how doing work in an organised and helpful way is useful for one and all.

Why did the teacher compare their work with the 'Breathing System'?

Riya's neighbours went to Chennai for 20 days during summer vacation. They requested Riya's mother to take care of their plants in their absence. Riya and her mother took this responsibility happily. They watered the plants regularly and shielded them from the heat of the sun during day time. When the neighbours returned home, they thanked Riya and her family for taking good care of their plants.

In what ways Riya and her mother took care of plants?

State the qualities of Riya that are depicted by this situation.

What could have happened if Riya and her mother had not taken care of their neighb

- Q.15 A rocket travels 7,59,600 km in 240 hours. How many kilometers will the rocket travel in one hour?
- Q.16 An engine pump 2,85,000 litres of water in five hours. How many litres of water will the engine pump in one minute ?
- Q.17 Subtract 93,84,236 from the sum of 3,95,08,625 and 74,38,906
- Q. Reason/Assertion questions.**
- Q.18 Assertion : In 6547 number the place value of 5 is 500
Reason : 5 is at tens place.
- (a) Both Assertion & Reason are true, and the reason correct explanation of the assertion.
- (b) Both assertion and reason are true, but the reason is not the correct explanation of the assertion.

Make a grid of 10 x 10 and write 1 to 100. Now circle multiples of 7, cross multiple of 9 and colour common multiple with red.

- (c) Assertion is true, but the reason is false.
- (d) Assertion is false but the reason is true.

Q.19 Assertion : The greatest 5 digit number is 99999

Reason : The smallest 5 digit number 10000

- (a) Both Assertion & Reason are true, and the reason correct explanation of the assertion.
- (b) Both assertion and reason are true, but the reason is not the correct explanation of the assertion.
- (c) Assertion is true, but the reason is false.
- (d) Assertion is false, but the reason is true.

Value Based Question :-

Rohan's father had Rs. 1,75,845 in his bank account. He withdrew Rs. 85,975 for repairing his house. Rohan had a friend Sunil whose family was very much in need of money for paying the hospital bills of his sick mother. Rohan wished to help Sunil and his family. He spoke to his father and his father gave him Rs. 4,575, out of the money withdrawn, to help Sunil. Sunil was happy and thanked Rohan for the help.

1. How much money is left in Rohan's father's bank account ?
2. How much money is left for repairing the house ?
3. Which value is exhibited by this act ?
